

Evolving Capabilities through Collaboration, Technology and Risk Awareness

Part of the Cyber and Risk Management National Insights Series

Online → Thursday, 19 May 2022 | 11:00am – 1:10pm AEST

Your Inspiring Speakers

SANDIE MATTHEWS

Chief Information Officer and Chief Data Officer

Department of Education

MURRAY TAYLOR

Chief Information Security Officer

Department of Transport

STUART WATT

Chief Information Officer

Department of Primary Industries and Regions, SA

MATT FEDELE-SIROTICH

Chief Information Security Officer

Department of Customer Service

NADIA TAGGART

Director Cyber Security Operations

Department of Parliamentary Services

JORGE ROMERO

Head of Networks & Cyber Security

Department of Customer Service

NINA FRATTAROLI

Information Security and Management Leader

Landgate, WA

MARTIN BROWN

Information Security Advisor (Director)

AUSTRAC

DR MARCUS BELDER

Group ISO

Defence Science and Technology Group

NEIL CAMPBELL

VP - Asia Pacific Japan

Securonix

HILARY BINGHAM

Cyber Defence Portfolio Director

Transport for NSW

DR. MALKA N. HALGAMUGE

Senior Lecturer in Cybersecurity

La Trobe University

Benefits of Attending

Hear how to progress your digital transformation journey

Find ways to protect your data from sophisticated cyber attacks

Discover the latest technology helping to mitigate risk and strengthen your security

Learn about upcoming legislative changes impacting your organisation

Adapting for a More Resilient Enterprise in the Next Normal

As Australia continues to face a rise in cybercrime and the number of attacks being labelled as 'substantial' increase, cyber security remains a key focus across government organisations. As the methods of attack become more sophisticated, it is crucial for agencies to share ways to mitigate risk and protect data from falling into the wrong hands.

The accelerated move to hybrid working, bought about by the pandemic, has seen a major shift in the levels of protection required to safeguard networks. Identity and access security has become a major factor in helping organisations secure their perimeters and work towards a zero trust mindset.

PSN's virtual **Evolving Capabilities through Collaboration, Technology and Risk Awareness event, part of the National Insights Series**, delivered by experts in their field, will examine how the rise in supply chain attacks are affecting operations and the latest technologies to protect active directories. Thought leaders will discuss their view on upcoming legislative changes and what it means to organisations and their cyber strategies. It will highlight case studies and generate conversation about the importance of unity and partnership to help guide Australia towards a more cyber secure future.

Who You'll Meet

Chiefs/Directors/Heads/Managers of:

- Cyber Compliance
- Cyber Security
- Information Management
- Cyber Policy
- Information Technology
- Risk Management
- Information and Privacy
- Cyber Governance

Explore the Agenda

11:00am PSN Welcome

11:10am **Welcome from Chair:**
Hilary Bingham, *Cyber Defence Portfolio Director, Transport for NSW*

11:20am **Government Keynote: A Strong Defence – Unity and Partnership**

- Increasing collaboration to share effective strategies
- Prioritising cyber security awareness
- Knowing your response capabilities and improving threat detection

Murray Taylor, *Group Chief Information Officer, Department of Transport, NSW*

11:35am **Partner Session: Advancing Cyber Threat Intelligence to Protect Against Cyber Attacks**

11:50am **Government Case Study: The Digital Transformation journey – improving your Organisation’s Ability to Mitigate Cyber Threats Early**

- Starting the transformation journey
- Cyber uplift processes and challenges
- Secure technology to support cyber uplift

Sandie Matthews, *CIO and CDO, Department of Education, NSW*

12:05pm **Partner Session: Keeping Your Data Safe – Securing Networks from Endpoint Threats**

12:20pm **Government Keynote & Case-Study: Protecting your Organisation from more Sophisticated Cyber Attacks**

- The rise in deepfake and AI cyber threats
- Protecting your Active Directory
- How to combat increased supply chain attack

Stuart Watt, *CIO, Department of Primary Industries and Regions, SA*

The list of speakers was of a high calibre, in their role and organisation, and content.

12:35pm Break

12:40pm Panel Discussion 1

The New Perimeters - Identity and Access Security and Zero Trust

- How to make zero trust a mindset
- The latest technologies in identity and access security
- How to decide the best methods of device and data protection when one size doesn't fit all
- The top tips for endpoint protection and hybrid working network security

Jorge Romero, Head of Networks & Cyber Security, NSW Telco Authority, Department of Customer Service, NSW

Nina Frattaroli, Information Security and Management Leader, Landgate, WA

Dr Marcus Belder, Group ISO, Defence Science and Technology Group

Neil Campbell, VP - Asia Pacific Japan, Securonix

Panel Discussion 2

Cybersecurity Priorities and How to Convey Risk

- Protecting essential services - what needs to be considered
- Protections and strategies - educating your workforce on why they are necessary
- The future of cyber security and the latest technologies helping keep citizens safe
- Leading your organisation through change

Moderator: Dr. Malka N. Halgamuge, Senior Lecturer in Cyber Security, La Trobe University

Nadia Taggart, Director Cyber Security Operations, Department of Parliamentary Services

Matthew Fedele-Sirotych, CISO, Department of Customer Service, NSW

Martin Brown, Information Security Advisor (Director), AUSTRAC

Rapid7 Panellist

1:10pm Close
